Ithemba Office Solutions

We've had the pleasure of working with Tania [Ithemba Office Solutions] for more than 8 years and they've been an excellent stationery and office automation supplier for us.

One outstanding attribute about Tania is that she always adds a personal touch to her work to ensure customer satisfaction and often goes beyond the call of duty to offer assistance where she can. She has a hands-on approach to doing business and on one occasion she was even willing to assist one of our directors to set up his printer and on another occasion spent hours at our office trying to fix one of our printers and scanners after it had jammed.

Tania also understands the nature of our business and that often we need conferencing stationery at the last minute. She'll do her best to make sure that everything is delivered on time and when we place an order for stationery, she makes the effort to come back and check whether the order is correct. She also regularly calls the office to check if we require anything.

Our company recommends that we change suppliers/service providers regularly, but we tend to come back to Ithemba because of the great customer service. Tania will always go out of her way to ensure that we get the product that we're looking for and go as far as delivering it herself, even if it's after hours. We look forward to a continued strong working relationship with Ithemba and highly recommend their services.
